

VertiKlean® Wall Washing System

Lightweight polyester disposable mop head and hardware designed for vertical surfaces

- Developed for wet cleaning ceilings and walls in controlled environments.
- Designed for one-time use, disposable mop heads are available in 2 sizes
- Comprised of polyester fabric laminated to clean ester foam which provides excellent abrasion resistance.
- Textured VertiKlean has a textured polyester face for those applications that require additional abrasion to improve particle removal from surface.
- Compatible with a wide range of chemicals.
- Lightweight, easy-to-maneuver swivel frame slips inside the mop head allowing a full range of motion. Ideal for reaching awkward corners and ceilings.
- Fully autoclavable stainless steel, anodized aluminum, and plastic hardware is available.
- Mop head is free of any cellulosic contaminants and is compatible with gamma, ETO, and autoclavable sterilization.
- Contec's stainless steel single or multi-bucket system completes the VertiKlean system.

Applications

- Provides complete range of motion
- Ideal for application of disinfectants and cleaning solvents.
- Ideal for reaching awkward corners and ceiling areas
