For Pharmacy & Oncology Healthcare Providers

ChemoChek™ Training Kits

The ChemoChek Training and Certification program provides participants with self-administered, hands-on training for the techniques required to safely handle chemotherapy drugs. At the conclusion of this program, the participant will be able to understand and use proper procedures while handling cytotoxic drugs.

- **Latex-free**
- Self-administered, hands-on training for the skills and techniques required for the safe handling of chemotherapy drugs
- Educates participants about the risks associated with the handling of chemotherapy drugs
- Program available for both Pharmacists and Nurses
- **12 contact hours** awarded after completion of the Pharmacy ChemoChek program
- **14.4 contact hours** awarded after completion of the Nursing ChemoChek program
- Refill kits available for both programs for ongoing training
